

Monday 11rd September 2017 - Stazione Marittima (Trieste, Italy)

All rooms are equiped with table for guest speakers, microphones, loudspeakers, video projectors, Wi-fi

Time	Saturnia (350 ppl)	Oceania AB (120 ppl)	Vulcania1 (130ppl)	Vulcania2 (60ppl)	Oceania C (55ppl)
18:00-19:00	APECS - Social Media and Science Communication (A. Spolaor, M. Casado, F. Burgay, F. Dallo, J.A. Caccavo)	IODP Exp. 374 pre-cruise meeting (closed) R. McKay, L. De Santis, D. Kulhanek - to be confirmed -	Antarctic Seismic Data Library System (SDLS) buisness meeting (Frank Nitsche and Chiara Sauli)		
19:00-20:00					

Wednesday 13rd September 2017 - Stazione Marittima (Trieste, Italy)

All rooms are equiped with table for guest speakers, microphones, loudspeakers, video projectors, Wi-fi

Time	Saturnia (350 ppl)	Oceania AB (120 ppl)	Vulcania1 (130ppl)	Vulcania2 (60ppl)	Oceania C (55ppl)
08:00-09:00	Mid to high latitude climate impacts on EAIS stability since the LGM. Defining knowledge gaps and research priorities (Vincent Favier, Tessa Vance, Tas van Ommen)	PAIS Subcommittee on paleobathymetry and paleotopography (Karsten Gohl and Stewart Jamieson)			
09:00-10:00					
10:00-10:30 coffea break					

10:30-11:00	Can we constrain and reconstruct the extent of the past and future ice shelves?"models and observations, Antartica future tipping point (Florence Colleoni, Laura De Santis, Fabio Florindo, Paolo Stocchi)	Terrestrial-Marine Regional Glacial History, Terra Nova Bay area (Jamey Stutz)			
11:00-12:30					
12:30-13:30 lunch break					
13:30-14:00	PRAMSO - Palaeoclimate Records from the Antarctic Margin and Southern Ocean (Tim Naish)				
14:00-15:00					
15:00-15:30					
15:30-16:00 coffea break					

16:00-17:00	IODP mission-specific platform Expedition 373, Antarctic Cenozoic Climate (Trevor Williams and Carlota Escutia)	Southern Ocean Climate Evolution (IODP 918-pre) mini-workshop (Minoru Ikehara, Xavier Crosta)			
17:00-18:00					
18:00-19:00	film	Internal post-cruise meeting of the PS104/MeBo Science Team (Karsten Gohl)	Post cruise meeting OGS Explora 2017 (Michele Rebesco and Laura de Santis)		
19:00-20:00					

Friday 15th September 2017 - Stazione Marittima (Trieste, Italy)

All rooms are equipped with table for guest speakers, microphones, loudspeakers, video projectors, Wi-fi

Time	Saturnia (350 ppl)	Oceania AB (120 ppl)	Vulcania1 (130ppl)	Vulcania2 (60ppl)	Oceania C (55ppl)
18:00-19:00	Sabrina Seafloor Survey Post-Cruise Meeting No. 1 (closed meeting) L. Armand				
19:00-20:00					

Saturday 16th September 2017 - SISSA -OGS (Trieste, Italy)

All rooms are equipped with table for guest speakers, microphones, loudspeakers, video projectors, Wi-fi

Time		room A	room B		
8:00-13:00 14:30-18:00		Drilling beneath Antarctica's Ice Shelves. A workshop to discuss science objectives and future drill sites to recover records of past climate and environmental change. Sites that test model-driven hypotheses of ice sheet dynamics will be a focus (Levy, Kuhn, Naish)	Holocene climate variability off Wilkes Land, East Antarctica and Integrating coastal ice cores with high resolution sediment records (closed meeting) J. Entorneau, C. Escutia, R. McKay, N. Bertler
